Preface

ClearAccess™ is an accessible voting and ballot marking application that allows voters with sight or mobility limitations to vote in an unassisted manner. The software runs on a touchscreen computer installed with an EZ Access keypad and Origin Sip-and-Puff device. The voter may make ballot selections either by touching the monitor, pressing buttons on the keypad, or using the Sip-and-Puff. Ballot selections may be presented on the computer's display, played back over audio headphones, or presented both on the screen and in audio format. Once the voter has finished voting, selections are printed to a paper ballot.

Election and ballot information recognized by ClearAccess is configured in the ClearDesign™ software. This information is programmed to a unique set of election media (typically a USB stick) for every voting location, then installed on the respective ClearAccess unit.

 ClearAccess is fully accessible, allowing disabled voters to configure, navigate and vote the ballot in an unassisted manner.

 ClearAccess is used to vote and mark ballots with voter selections, but is not used to count, tally or report race or candidate totals.

Audience and scope

This guide provides voters with concise visual instructions for voting using ClearAccess.

Using this guide

The guide contains the following topics.

Chapter 1. Voter Cards

This chapter includes pull-out voter instruction cards for voting using the touchscreen, the Origin Sip-and-Puff, and the touchscreen with the EZ Access keypad.

Notation conventions

The following conventions are used in this manual:

Convention	Purpose
Bold	Denotes clickable selections on web pages and dialogs.
Italics	Denotes placeholders for user-defined values.
Monofont	Denotes product keywords and system commands.
✓	Indicates noteworthy information.
